| RATES PROPOSED TO BE CHARGED BY THE |) | |
| COMPANY TO CUSTOMERS OF THE COMPANY |) | |

O R D E R

This case originated with the filing of the application of Consolidated Management Services, Inc. ("Consolidated Management") initially requesting a Certificate of Public Convenience and Necessity to construct an addition to its existing sewage treatment facilities; concurrent approval of Consolidated Management's proposed plan of financing; and approval of increased sewer rates and charges. Consolidated Management's application was stamped received March 30, 1992. Deficiencies were noted in the application and those deficiencies remained until October 5, 1992 when Consolidated Management filed an amendment to its original application. Consolidated Management's October 5, 1992 filing consisted of amendments and revised schedules and exhibits for the rate portion of its request.

Consolidated has been unable to obtain approval of the Division of Water ("DOW") in the Cabinet for Natural Resources and Environmental Protection which is a minimum filing requirement when a Certificate of Public Convenience and Necessity to construct is requested. As a result of Consolidated Management's inability to obtain DOW approval and meet the Commission's minimum filing requirements, the construction and financing portions of its original request cannot be considered by the Commission. Therefore, the statutory time period prescribed by KRS 278.190 commences as of the filing date of Consolidated Management's revised and amended rate request.

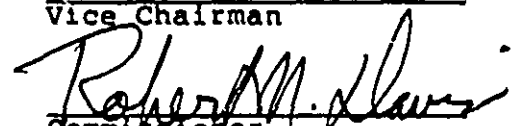

IT IS THEREFORE ORDERED that the statutory time period within which the Commission has to review Consolidated Management's revised and amended rate application prescribed by KRS 278.190 shall commence to run with the filing of the amendments on October 5, 1992.

Done at Frankfort, Kentucky, this 24th day of November, 1992.
